Product Description

COMFORT ZONE 1/3 HP

The Comfort Zone 1/3 HP High Velocity Air Mover is multipurpose floor fan perfect for drying out wet and damp spaces or providing general room air circulation. Perfect for residential and commercial use, this powerful air mover is ideal for use in crawl spaces, basements, attics, or garages and contractor or service industry jobs, including construction, plumbing, painting, carpet cleaning, and other janitorial services. It can help dry anything from floors with water damaged to carpet and floors that have just been cleaned to freshly painted spaces.

With a convenient carry handle, this 1/3 horsepower air mover is easy to move around the room and features 3 air speeds with 3 adjustable angles helping to move and circulate air to dry your space quickly and efficiently. The Comfort Zone 1/3 HP high velocity air mover comes equipped with a GFCI plug that will automatically shut off power directly at the power source when it detects an electrical fault. It also comes with a wrap-around cord design and is stackable up to 4 high for easy, space saving storage.

3 Speeds and 3 adjustable angles - 0°, 45°, 90°
