Product Description

KUBOTA KX040 w/Cab w/Thumb w/6-Way Blade

Digging isn't easy, but the Kubota KX040-4 6-in-1 Blade will make it feel like it is. With 40.4 horsepower and a 5' 10.9"-wide blade, the Kubota KX040-4 6-in-1 Blade is perfect for getting the job done. Kubota's hydraulic 6-in-1 Blade can be angled right and left, and now, tilted as well. This blade enables six different positions: neutral, floatup, left-end-up, right-end-up, leftend-forward and right-end-forward. This feature makes leveling and backfilling work incredibly easy, even on inclines and uneven terrain, making you more productive and more efficient.
