### Product Description

## Gravely Mach 1 zero turn

CUTS ANY GRASS DOWN TO SIZE.

Thick wet grass. Overgrown, neglected properties. Tough stalky grass. No matter which is in its path, they're all considered lunch to the Mach One. It can easily handle them all because its tunnel chamber deck has a unique design to direct clippings away from the blades after they're cut to keep them from bogging down.

Features

Integrated Seat Isolators

Bumps and engine vibration are smoothed out thanks to vibration-absorbing dampers.

Fully Welded Tubular Frame

Strength and durability are on display with its closed tube frame rails and fully welded construction.

High-Volume Output (HVO) Deck

The HVO deck provides increased depth from trim side to discharge side so it can process greater material volume.
