Product Description

HANDHELD AUGER ECHO

Drills through snow and ice quickly and cleanly and turns into a powerful earth auger for year-round use.

Weighing just 9.8kg and with an 42.7cm³ professional grade engine, it's light and powerful. The heavy duty air filter equates to less maintenance and efficient operation in the most extreme conditions.

Professional engine

42.7cm³ professional-grade, 2-stroke engine with exclusive Pro-Fire Electronic ignition.

Robust and comfortable

Padded handle for additional comfort, shock absorbing spring on 6", 8" and 10" augers, additional handle allows two person operation and heavy duty handle and frame reduce vibration.

Outstanding performance

30.2:1 gear ratio for fast cutting speeds coupled with powerful 42.7cm³ engine makes this earth/ice auger a reliable tool for any digging/drilling operation.
