Product Description

Ditch Witch SK900 Mini Skid

POWER

A new YanmarR 24-HP turbo engine (Yanmar 24HP Diesel) allows for more torque where it matters so you get more done.

OPTIMIZED PERFORMANCE

A lower ground drive speed gives the SK900 superior power to the attachment, outperforming the competition to dig, lift, and drive. When working at altitudes, the control system optimizes performance, fuel efficiency and torque.

PRODUCTIVITY

The manual throttle lever from the SK1550 has been added, enhancing the operator's ability to manage ground speeds for increased efficiency.

RUGGED BUILD

A decreased ground drive hydraulic system bulks up the longevity of the machine while daily upkeep is made easier with an accessible fuel cover and thicker exhaust pipe.

SUPERIOR CUSTOMER SUPPORT

As with all Ditch Witch equipment, the SK900 is backed by a worldwide network of dealerships you can count on for unmatched commitment to your success. From genuine Ditch Witch parts to factory-trained service and expert advice, your Ditch Witch dealership is your trusted partner.
