Product Description

Big Green Egg 3 Piece Accessory Kit for Modular Nest

The Big Green Egg 3 Piece Accessory Kit for the Modular Nest System is a set of three powder-coated steel accessories designed to expand the organizational capabilities of any Modular Nest outdoor kitchen station. The kit includes an Accessory Storage Rack, a Utility Tray, and a Towel Holder. These three accessories attach to the Modular Nest System to keep grilling tools, seasonings, beverages, and cleaning supplies organized and accessible during cooking sessions. All three components are made from powder-coated steel and are designed for permanent outdoor installation in proximity to the EGG.

Accessory Storage Rack

The Accessory Storage Rack is designed to mount on the Modular Nest System and provide organized storage for grilling tools, spice bottles, sauces, and beverages within easy reach of the EGG. The rack keeps frequently used items off the counter surface and organized in a dedicated holder so they do not get misplaced during the heat of a cooking session. It is sized to hold the items most commonly needed throughout a cook: tongs, a spatula, a thermometer, seasoning bottles, a basting brush, and a beverage. The powder-coated steel construction is durable in outdoor conditions and easy to clean between sessions.

Utility Tray

The Utility Tray is a multipurpose powder-coated steel tray that mounts on the Modular Nest System and can function as a tool tray for holding utensils during cooking or as an ash pan for collecting the small amount of ash that accumulates in the EGG fire bowl after each cook. Using the Utility Tray as an ash pan makes the cleanup process more contained and organized: ash from the Ash Tool is deposited into the tray rather than onto the patio surface or the Nest frame below. As a tool tray, it provides a flat surface adjacent to the EGG for resting tongs, a grill brush, or a thermometer during active cooking.

Towel Holder

The Towel Holder mounts on the Modular Nest System and holds a cloth towel or a paper towel roll within

reach during cooking. Having a towel holder integrated into the EGG station eliminates the need to keep a separate towel rack nearby and ensures that a cloth or paper towel is always accessible for wiping hands, cleaning the EGG's exterior, or cleaning the cooking surface and accessories. The powder-coated steel holder is durable in outdoor conditions and sized to accept a standard paper towel roll without a core adapter.

Modular Nest Compatibility

All three accessories in the kit are designed to mount on the Big Green Egg Modular Nest System. They attach to the frame rails and tool hook positions available on EGG Frames and Expansion Frames in the Modular Nest System. The mounting approach does not require drilling or permanent modification to the Nest System components, and the accessories can be repositioned along the Nest frame as the outdoor kitchen layout evolves.

Specifications

Includes: Accessory Storage Rack, Utility Tray, and Towel Holder. Material: powder-coated steel for all components. Designed for outdoor use. Compatible with Big Green Egg Modular Nest System EGG Frames and Expansion Frames. No permanent modification required for installation.

Getting More from Your Modular Nest

Accessory kits like this three-piece set are designed to solve the small organizational challenges that arise during real cooking sessions. Without dedicated hooks and racks, tools tend to end up on side tables, on the ground, or balanced precariously on the EGG's hinge. The 3 Piece Accessory Kit for Modular Nest addresses those issues directly by putting your most-used items within arm's reach and off the counter. For anyone who values a tidy, well-organized cooking station, this kit delivers a meaningful improvement to the everyday cooking experience at a modest cost relative to the benefit it provides.
