Product Description

Big Green Egg Modern Farmhouse Table 50.4-Inch for Large EGG

The Big Green Egg Modern Farmhouse Table in the 50.4-inch format for the Large EGG is a 2025 outdoor kitchen table designed with contemporary styling that blends modern design sensibility with traditional country-home character. Built from high-quality aluminum and steel with a durable, weather-resistant powder-coated finish, the table provides a complete outdoor kitchen installation for the Large EGG with watertight storage compartments, a heavy-duty shelf, stainless steel door pulls, four casters, and integrated levelers. The Modern Farmhouse Table comes with a lifetime warranty and is designed and built specifically for the Big Green Egg platform.

Contemporary Design for Any Outdoor Space

The Modern Farmhouse design aesthetic for this table incorporates clean lines and a restrained visual profile that integrates naturally into contemporary outdoor living spaces. Unlike the traditional Acacia Hardwood Table with its warm wood surfaces and natural grain variation, the Modern Farmhouse Table presents a consistent powder-coated panel finish with stainless steel accents in the door pulls and logo plate. This aesthetic is appropriate for outdoor kitchens with modern tile, stone, or contemporary outdoor furniture, and it complements a minimalist exterior design language without the maintenance requirements of an exposed wood surface.

Aluminum and Steel Construction with Powder-Coated Finish

The Modern Farmhouse Table for Large EGG uses high-quality aluminum and steel construction with a durable, weather-resistant powder-coated finish. Aluminum and steel construction is more dimensionally stable than wood in outdoor conditions: it does not absorb moisture, does not expand and contract significantly with humidity changes, and does not require periodic oiling or sealing to maintain its structural integrity. The powder-coated finish provides UV and corrosion resistance that maintains the table's appearance through years of outdoor exposure. The stainless steel logo plate on the table front adds a polished accent that complements the contemporary design and reinforces the Big Green Egg brand identity.

Watertight Storage Compartments

The Modern Farmhouse Table includes watertight storage compartments accessible through doors with solid stainless steel pulls. The watertight compartments provide enclosed, weather-protected storage for charcoal bags, accessories, electronic equipment like the EGG Genius temperature controller, and any other items that need to be shielded from rain and outdoor moisture. Watertight storage is a practical advantage over open shelving for outdoor kitchen storage, particularly in climates with frequent rain or heavy morning dew. The stainless steel door pulls are corrosion-resistant and provide a secure, comfortable grip for opening the compartment doors.

Heavy-Duty Shelf, Casters, and Levelers

The Modern Farmhouse Table includes one heavy-duty shelf within the table structure for additional storage. Four casters allow the table with the Large EGG installed to be rolled to a new position on a flat patio surface. Integrated levelers allow the table to be leveled on surfaces with minor irregularities, ensuring a stable, flat working surface during cooking. The combination of casters and levelers gives the table both mobility and the ability to be secured at a fixed cooking position.

Lifetime Warranty

The Modern Farmhouse Table for Large EGG is backed by a lifetime warranty, reflecting Big Green Egg's confidence in the quality and durability of the construction. The lifetime warranty covers defects in materials and workmanship for the life of the product.

Specifications

Table length: 50.4 inches. Material: aluminum and steel with powder-coated finish. Includes: watertight storage compartments, one heavy-duty shelf, stainless steel logo plate, solid stainless steel door pulls, integrated levelers, and 4 casters. Compatible with Large Big Green Egg (requires Table Nest, sold separately). Backed by a lifetime warranty.

The Modern Farmhouse Table for Large EGG brings together outdoor-grade construction, refined aesthetics, and full compatibility with the Big Green Egg accessory ecosystem, making it one of the most complete table solutions available for the Large Big Green Egg.
