### **Product Description**

#### **Big Green Egg Modern Farmhouse Table 50.4-Inch for XL EGG**

The Big Green Egg Modern Farmhouse Table in the 50.4-inch format for the XL EGG is a 2025 outdoor kitchen table with contemporary farmhouse design, built from high-quality aluminum and steel with a weather-resistant powder-coated finish. Designed specifically for the XL Big Green Egg, the table includes watertight storage compartments, a heavy-duty shelf, stainless steel logo plate, solid stainless steel door pulls, integrated levelers, and four casters. It provides a complete XL EGG table installation in a contemporary format that is more compact than the 69-inch version, suited for outdoor kitchens where space is a consideration but modern design is the priority. The table is backed by a lifetime warranty.

#### **50.4-Inch Format for the XL EGG**

The 50.4-inch Modern Farmhouse Table for XL EGG provides a complete table installation in a more contained footprint than the 69-inch format. For outdoor kitchens where the available space does not accommodate a 69-inch table but a contemporary table installation of the XL EGG is the goal, the 50.4-inch format delivers the Modern Farmhouse aesthetic and the watertight storage features in a more space-efficient profile. The XL EGG's center opening takes up more of the 50.4-inch table width than it does in the 69-inch table, but the remaining counter space on either side of the EGG opening is still functional for the cooking tasks associated with the XL format.

#### **Modern Farmhouse Design**

The 2025 Modern Farmhouse design incorporates design elements that are contemporary yet comfortable, reflecting the characteristic blending of modern minimalism and traditional country-home warmth that defines the farmhouse aesthetic. The powder-coated panel construction, stainless steel accents, and clean proportions of the table work well in both modern outdoor living environments and more traditional patio settings with wood furniture and natural material surrounds.

## **Watertight Storage, Casters, and Levelers**

The 50.4-inch Modern Farmhouse Table for XL EGG includes watertight storage compartments with stainless steel door pulls, a heavy-duty shelf, four casters, and integrated levelers. The watertight compartments provide moisture-protected storage for charcoal, accessories, and equipment. Four casters allow the loaded XL EGG table to be rolled on flat patio surfaces. Levelers ensure the table surface is level on surfaces with minor height irregularities.

## **Specifications**

Table length: 50.4 inches. Material: aluminum and steel with powder-coated finish. Includes: watertight storage compartments, one heavy-duty shelf, stainless steel logo plate, solid stainless steel door pulls, integrated levelers, and 4 casters. Compatible with XL Big Green Egg (requires Table Nest, sold separately). Backed by a lifetime warranty.

## **A Purpose-Built Table for the XL EGG**

The 50.4-inch Modern Farmhouse Table for XL EGG provides a properly sized in-table installation solution for the XL Big Green Egg in a compact, visually refined package. The table's dimensions are matched to the XL EGG's footprint, ensuring the ceramic body sits correctly within the table cutout while the surrounding surface remains functional for prep and staging tasks. The Modern Farmhouse design aesthetic gives the setup a polished, intentional look that elevates the outdoor cooking area.

## **Construction Quality**

The Modern Farmhouse Table is built for outdoor use with materials that resist the environmental exposure typical of a working patio or deck. The frame and surface construction withstand moisture, UV exposure, and the heat proximity associated with an in-table EGG installation, ensuring the table remains structurally sound and visually attractive through extended use. This durability is essential for an outdoor piece that is expected to serve as a permanent part of the cooking setup.

## **Accessory and System Compatibility**

Like other Big Green Egg tables, the Modern Farmhouse Table for XL EGG is designed to work with the full range of Big Green Egg accessories and add-ons. Tool hooks, side shelves, and organizational accessories can be added over time to build out the cooking station incrementally. The table is also compatible with the EGG accessory ecosystem, allowing you to integrate your existing tools and equipment into the new setup without replacement.

## **The Right Scale for Many Outdoor Spaces**

At 50.4 inches, this table fits into outdoor spaces where a longer 69-inch table would be too large, while still providing meaningful prep and staging surface around the XL EGG. For patios, decks, and covered outdoor kitchen areas with defined dimensions, this compact farmhouse table delivers the right combination of EGG support, work surface, and visual design without overwhelming the space.
