Product Description

Big Green Egg Modern Farmhouse Table 69-Inch for Large EGG

The Big Green Egg Modern Farmhouse Table in the 69-inch format for the Large EGG is a 2025 outdoor kitchen table with contemporary farmhouse styling and generous counter space for large-format outdoor cooking. Built from high-quality aluminum and steel with a durable powder-coated finish, the 69-inch table provides a complete Large EGG outdoor kitchen installation with watertight storage compartments, a heavy-duty shelf, solid stainless steel door pulls, four casters, integrated levelers, and a stainless steel logo plate. A lifetime warranty covers the table's materials and workmanship.

69-Inch Format for Generous Counter Space

At 69 inches in length, the Modern Farmhouse Table for Large EGG provides substantially more counter space than the 50.4-inch format. The additional length creates room for an expanded prep area alongside the Large EGG opening, additional storage compartment capacity below the counter surface, and a more substantial outdoor kitchen presence overall. For cooks who regularly prepare large meals on the Large EGG and want ample prep space integrated directly into the table, the 69-inch format is the appropriate choice. The extended counter surface provides room for a full cutting board, a plating area, seasoning and sauce staging, and tool placement simultaneously without crowding.

Modern Farmhouse Aesthetic

The Modern Farmhouse design blends contemporary clean lines with traditional country-home warmth to create a table aesthetic that is versatile enough to complement a wide range of outdoor living spaces. The 2025 design incorporates the architectural elements of farmhouse style, including panel proportions and material choices that reference traditional kitchen and pantry furniture, while executing them in contemporary aluminum and steel construction with a powder-coated finish. The result is a table that looks at home in both modern outdoor kitchens with stone and tile surrounds and more traditional patios with wood pergolas and furniture.

Aluminum and Steel Construction

The 69-inch Modern Farmhouse Table uses high-quality aluminum and steel construction with a weather-resistant powder-coated finish. The aluminum and steel materials do not require the periodic oiling or sealing that wood outdoor furniture needs and are dimensionally stable in outdoor conditions through humidity and temperature cycles. The powder-coat finish provides UV resistance and corrosion protection that maintains the table's appearance through years of outdoor installation.

Watertight Storage and Table Features

The 69-inch Modern Farmhouse Table includes watertight storage compartments with solid stainless door pulls, a heavy-duty shelf, integrated levelers, and four casters. The watertight compartments protect stored items from rain and moisture, and the stainless door pulls provide a secure grip and a corrosion-resistant accent that complements the overall table design. Four casters allow the loaded table to be rolled to a new position on a flat patio.

Specifications

Table length: 69 inches. Material: aluminum and steel with powder-coated finish. Includes: watertight storage compartments, one heavy-duty shelf, stainless steel logo plate, solid stainless steel door pulls, integrated levelers, and 4 casters. Compatible with Large Big Green Egg (requires Table Nest, sold separately). Backed by a lifetime warranty.

Extended Surface for the Large EGG

The 69-inch format of this Modern Farmhouse Table gives Large EGG owners an extended prep and staging surface that goes well beyond what a compact table can offer. With 69 inches of total table length, there is dedicated room on both sides of the EGG for prep work, tool staging, and plating, making this the right choice for cooks who regularly prepare multi-component meals or cook for larger groups.

Designed for the Outdoors

The materials and construction of the Modern Farmhouse Table are chosen for outdoor durability. The frame resists the moisture, UV exposure, and temperature variation typical of an outdoor cooking environment, while the surface provides a functional worksurface that holds up through active cooking sessions. This table is designed to remain a permanent, attractive fixture of your outdoor cooking area through years of regular use alongside your Large Big Green Egg.
