Product Description

Big Green Egg Solid Acacia EGG Mates 21 x 15 Inch for 2XL EGG

The Big Green Egg Solid Acacia EGG Mates 21 by 15 inch for the 2XL EGG are a set of two large-format solid acacia hardwood side tables crafted with mortise and tenon joints and finished to match the Big Green Egg acacia product line. At 21 by 15 inches (53 by 38 centimeters) per Mate, they provide a working surface scaled to the 2XL EGG's exceptional cooking capacity and the volume of food management that surrounds a high-output cooking session. The Mates mount on the 2XL EGG Nest bracket positions and provide flanking prep space on both sides of the world's largest ceramic kamado grill.

Proportional to the 2XL EGG

The 2XL Big Green Egg's 672-square-inch cooking surface and capacity for 40 burgers or 20 racks of ribs make it the appropriate EGG for large outdoor events, family reunions, and competitive barbecue productions. Cooking at this volume creates a corresponding need for surface space to stage raw ingredients before they go onto the EGG and to hold finished food after it comes off. The 21 by 15-inch Mates provide the largest standard EGG Mate format available and create a combined 42-inch span of flanking work surface on both sides of the 2XL when both are deployed. This surface area is appropriate for managing the logistics of a high-volume 2XL cooking session.

Mortise and Tenon Construction

The mortise and tenon joint standard used in the 2XL EGG Mates ensures structural integrity at the 21 by 15-inch scale. The greater surface area of the larger Mates creates more lever arm stress at the fold pivot joints when items are placed near the outer edges of the Mate surface, and the mortise and tenon construction handles this stress better than fastener-only joints. The result is a set of Mates that maintain a flat, stable surface and secure fold mechanism through years of outdoor use alongside the 2XL EGG.

Matched Acacia Finish

The 2XL EGG Mates are finished to match the Big Green Egg EGG handle and the Acacia Tables and Acacia

Inserts in the product line. The UV-resistant oil applied to the acacia surface helps maintain the natural color of the wood over time and keeps the Mates visually consistent with other acacia components in the 2XL outdoor kitchen setup.

Specifications

Material: solid acacia wood with mortise and tenon joints. Dimensions: 21 inches x 15 inches (53 x 38 cm). Compatible with 2XL Big Green Egg Nest. Sold as a set of 2. Finished to match Big Green Egg EGG handle and acacia product line. UV-resistant oil finish.

A Work Surface That Matches the 2XL Scale

The 2XL Big Green Egg is the largest kamado grill in the lineup, and cooks on this scale typically involve large cuts of meat, multi-protein sessions, or catering-volume output. The 21 x 15-inch EGG Mate provides the side surface area needed to manage prep, staging, and plating at that scale. Whether you are arranging a full packer brisket, setting out rub and injection marinade, or plating finished proteins before slicing and serving, this EGG Mate gives you the room to do it without improvising workspace.

Solid Acacia Hardwood Construction

Acacia hardwood is chosen for the EGG Mate line because of its combination of density, natural beauty, and outdoor durability. The solid construction of this 21 x 15-inch top holds up to the demands of active outdoor cooking without warping or deteriorating under normal use. The smooth surface is easy to clean between uses, and the natural variation in acacia grain gives each piece a distinctive, attractive appearance.

Caring for Your EGG Mate

Oil the surface with a food-safe hardwood finishing oil before first use and at the beginning of each grilling season. If the wood begins to look dry or faded mid-season, a light oiling will restore its appearance and protect the surface. Cover or store the EGG Mate in a sheltered area during winter months. With minimal maintenance, this large-format EGG Mate will complement your 2XL Big Green Egg setup for many seasons of serious outdoor cooking.
