Product Description

Big Green Egg Solid Acacia EGG Mates 21 x 15 Inch for Large EGG

The Big Green Egg Solid Acacia EGG Mates 21 by 15 inch for the Large EGG are a set of two larger-format sustainably harvested acacia hardwood side tables that provide a more expansive preparation surface alongside the Large EGG compared to the standard 17.5 by 11-inch Mates. At 21 by 15 inches per Mate, they accommodate a full-sized cutting board, a spice staging area, and tool placement simultaneously, making them appropriate for cooking sessions where more surface space is needed. The Mates use mortise and tenon joint construction, fold up and down on the Nest bracket positions, and are finished with a UV-protective oil to match the Big Green Egg acacia product line.

21 x 15-Inch Expanded Surface Area

At 21 by 15 inches, each Mate in this set is substantially larger than the standard 17.5 by 11-inch format. The additional 3.5 inches of length and 4 inches of depth translate into a meaningfully larger working surface: a full-sized cutting board fits within the 21 by 15-inch footprint alongside space for ingredient staging, which is not possible on the smaller format. For cooks who use the Large EGG for extended cooking sessions with multiple courses or large quantities of food, the expanded Mate surface area reduces the need to rely on a separate folding table for additional prep space.

Sustainably Harvested Acacia and Mortise and Tenon Joints

The 21 by 15-inch Mates are made from sustainably harvested acacia wood using the same mortise and tenon joint construction standard used throughout the Big Green Egg EGG Mates lineup. This joint construction ensures long-term stability in the Mates' larger format, where the greater surface area creates more lever arm stress on the joints at the fold pivot during use. The acacia material's natural hardness and moisture resistance remain appropriate for outdoor use in the larger format as in the smaller.

Matched Finish

The 21 by 15-inch Large EGG Mates are finished to match the EGG handle and the Big Green Egg Acacia

Table and Acacia Insert product line. The UV-resistant oil finish helps the acacia surface retain its natural color over time with sun exposure. Applying a food-safe wood oil periodically maintains the surface finish and extends the visual and material quality of the Mates over multiple seasons of outdoor use.

Specifications

Material: sustainably harvested solid acacia wood with mortise and tenon joints. Dimensions: 21 inches x 15 inches (53 x 38 cm). Compatible with Large Big Green Egg Nest. Sold as a set of 2. Finished to match Big Green Egg acacia product line. UV-resistant oil finish. Folds up and down on Nest bracket positions.

More Surface for Bigger Cooks

The 21 x 15-inch EGG Mate gives Large EGG owners a generous side surface for the full range of tasks that happen during an active cook. Whether you are butterflyflying a leg of lamb, arranging vegetables for a grill basket, or plating a brisket before slicing, this larger surface accommodates the task without crowding. The extra dimensions compared to the standard 17.5 x 11-inch EGG Mate make a real difference when cooking for larger groups or preparing multi-component meals.

Solid Acacia Hardwood

Acacia hardwood provides the density and durability required for an outdoor cooking surface. The 21 x 15-inch top is sanded smooth and treated to provide a pleasant working surface that is easy to clean and maintain. The natural variation in acacia grain gives each EGG Mate a distinctive appearance, making it a visually attractive addition to your outdoor cooking station alongside the Large Big Green Egg.

Maintenance

Oil the acacia surface with a food-safe hardwood oil before first use and at the start of each grilling season to keep the wood hydrated and the surface looking its best. Store under a cover or in a sheltered area during off-season periods. With routine care, this large-format EGG Mate serves as a durable, attractive side surface for your Large Big Green Egg for many years.
